Why should facilities buy the Kerae?

Facilities should buy Kerae products because they are developed by people who truly understand the industry from the inside.

Our products are developed by professionals with 20 years of Skilled Nursing Facility management experience and 14 years of Hospice management experience. We understand the daily challenges facilities face, including rising costs, compliance demands, staffing pressures, and the need for reliable, high-quality supplies.

At Kerae, product quality is driven by a passion to help facilities save money without compromising care. We know what facilities need because we have worked in them, managed them, and experienced the same challenges firsthand.

Why choose Kerae?

* Developed by experienced industry insiders
* Designed with real facility needs in mind
* Focused on quality, reliability, and cost savings
* Built to support Skilled Nursing, Hospice, and long-term care operations
* Backed by a genuine passion to help facilities operate more efficiently

Kerae products help facilities reduce costs, maintain quality, and support better care.

Portable Vacuum Suction Machine

About this item

The Portable Vacuum Suction Machine from Kerae Medical is a reliable, compact solution for airway clearance at home, in clinics, or on the go. Built with an oil-free lubricated piston pump, this unit delivers powerful suction (up to 0.08 MPa) without the need for routine maintenance. Its 1000mL overflow-protected collection bottle is easy to detach and clean, while the integrated pressure gauge and adjustable dial make operation smooth and precise. Despite its high suction capacity, this unit is impressively quiet (≤65 dB), making it suitable for sensitive environments, including use around pets and children. Weighing only 6 lbs and featuring a built-in handle, it's a portable respiratory support tool ideal for emergencies, post-op care, or chronic conditions.

Key Features

*High-performance suction range of 0.02–0.08 MPa
*Up to 3.96 gal/min pumping rate
*Oil-free piston pump – maintenance-free and long-lasting
*Easy setup with included tubing, filters, and accessories
*Ideal for home care, clinical use, elderly or post-surgical recovery
*Main suction tube
*2 disposable sputum suction tubes
*3 filter elements
*3 filter connection tubes
*Power cord, 2 fuses, user manual, and packaging box

Specifications

*1000mL collection bottle with overflow protection
*Low noise operation (≤65 dB)
*Lightweight and portable – only 6 lbs
*1000mL suction bottle

Oxygen Humidifier Bottle 350ml

About this item

Ensure your oxygen therapy is more comfortable with the Kerae 350 mL Oxygen Humidifier Bottle. Designed for use with oxygen concentrators, this bottle helps reduce dryness and irritation by adding essential moisture to the airflow. The smart relief valve automatically releases excess pressure, while the easy-to-read water level markings ensure proper operation at a glance. Made of durable, shatter-resistant PP plastic, this bottle maintains its shape and performance over time. With universal compatibility, it connects seamlessly to most concentrators and tubing systems. Whether in a clinical setting or at home, this bottle is an essential add-on for safe, effective oxygen delivery.

Key Features

*Universal Fit – Compatible with most oxygen concentrators and tubing on the market

*Smart Relief Valve – Automatically manages excess pressure for added safety

*Durable Construction – Made from odorless, pressure-proof PP plastic

*Clear Level Indicators – Full-circle markings show minimum and maximum water levels

*Leak-Resistant Design – Secure cap and connection ports prevent water and pressure loss

Specifications

*350 mL Capacity – Holds enough water for extended use without frequent refilling

Electric Five Function Six Speed Home Hospital Bed (B2)

About this item

Upgrade patient care with the B2 Electric Five Function Home Hospital Bed—designed for maximum adjustability, safety, and comfort in residential or long-term care settings. This advanced model features five motorized adjustments: backrest elevation, leg lift, full bed height control, Trendelenburg and reverse Trendelenburg tilt, and a CPR quick-release function. The durable frame supports intensive daily use while its sleek dark woodgrain panels add a warm, home-like touch. The easy-to-use remote allows six-speed adjustment levels for smooth transitions, giving caregivers precise control over patient positioning. Foldable safety side rails, locking caster wheels, and a quiet motor system ensure ease of movement and peace of mind for both users and caregivers.

Key Features

*Five Electric Functions: Backrest, leg, height, Trendelenburg /reverse Trendelenburg, and CPR mode
*Six-Speed Motor Control: Smooth, precise, and quiet operation
*CPR Emergency Release: Fast flattening in case of emergency
*Collapsible Side Rails: Enhances safety while allowing easy access
*Woodgrain Head/Foot Boards: Home-style design for non-institutional feel
*Lockable Casters: Easy mobility and stable placement
*Heavy-Duty Frame: Built for long-term daily care and support

SKU: E5FHHB00B2

Electric Three Function Home Hospital Bed (B3)

About this item

Engineered for reliable performance and essential comfort, the Electric Three Function Hospital Bed (B3) is ideal for home care or clinical settings. This sturdy, easy-to-operate bed offers essential electric adjustments including backrest elevation, leg positioning, and height control—all managed via a simple remote control. The woodgrain head and foot boards deliver a warm, residential aesthetic, while smooth-rolling casters and collapsible safety side rails add convenience and protection. Built for long-term care, this bed supports daily use with a reinforced steel frame and whisper-quiet operation.

Key Features

*Three Electric Functions – Adjust head, legs, and height effortlessly with electric control
*Durable Build – Steel frame supports reliable, long-term use
*Wood-Style Finish – Blends into home environments without clinical feel
*Safety Side Rails – Foldable and secure for added user protection
*Easy to Move – Smooth casters with locking mechanism for placement stability
*Simple Remote Control – Intuitive interface for users and caregivers

SKU: E3FHB00B3

Electric Three Function Home Hospital Bed (B5)

About this item

The Electric Three Function Home Hospital Bed (B5) from Kerae Medical is a durable, user-friendly solution for long-term care in both home and clinical settings. Designed with adjustable head, foot, and bed height functions, this bed provides optimal positioning and comfort for patients while reducing strain on caregivers. The included handheld remote control makes it easy to operate, and the sturdy steel frame supports reliable daily use. High-impact head and foot boards with built-in corner bumpers offer enhanced safety, while the smooth-rolling casters make repositioning and cleaning simple. Whether recovering from surgery or managing chronic conditions, this electric bed combines clinical-grade performance with home-ready design. Key Features.

Key Features

*Three electric functions: head, foot, and bed height adjustments
*Remote control for easy, independent operation
*High-impact ABS head/foot boards with corner protectors
*Central braking system for added safety and stability
*Perforated steel mattress platform for ventilation and durability
*Smooth caster wheels with locking brakes for mobility and security
*Ideal for home care, assisted living, and rehabilitation environments

SKU: E3FHB00B5

Electric Five Function Folding Ultra Light Hospital Bed (B1)

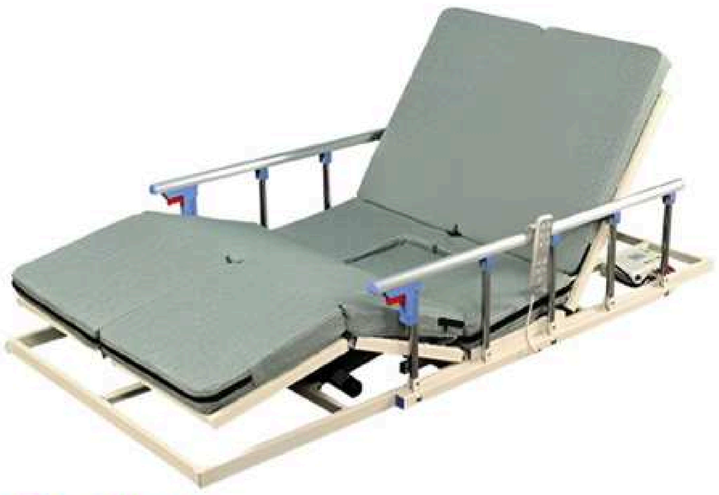

About this item

Designed for maximum versatility and patient comfort, the Electric Five Function Folded Ultra Light Hospital Bed is the perfect solution for home care or clinical environments. Its durable yet lightweight frame supports multiple electric adjustments—including backrest, leg lift, height, Trendelenburg, and reverse Trendelenburg positions—controlled easily via remote. The wood-style paneling blends into home settings, while the collapsible frame allows for quick folding and space-saving storage. Smooth-rolling casters with brakes ensure easy mobility and secure placement. Foldable side rails offer added safety without compromising accessibility.

Key Features

*Five Electric Functions – Easily adjust head, foot, height, and tilt angles
*Ultra-Light and Foldable – Compact design folds for transport or storage
*Remote Control Operation – Simple, intuitive adjustments at the push of a button
*Safety Side Rails – Fold down for accessibility, lock in place for support
*Smooth Mobility – Four caster wheels with secure locking system

Multifunctional Adjustable Hospital Bed Overlay with Hard Cotton Mattress

About this item

Transform any standard hospital bed into a fully adjustable care station with the Multifunctional Assistive Bed Frame and Hard Cotton Mattress from Kerae Medical. Designed as a complete overlay system, this unit combines a re-clining metal frame with a firm mattress, creating a supportive, versatile setup for long-term comfort and ease of care. The mattress is divided into three connected sections for upper body support, leg elevation, and a center cutout to accommodate bedpan use or hygiene care. With smooth remote-controlled adjustments, caregivers can reposition patients with ease while improving access and reducing strain. Ideal for home recovery, hospice, and long-term care settings, this setup enhances both patient dignity and caregiver efficiency.

Key Features

*Three-zone mattress: upper body, legs, and center opening for hygiene access
*Reclining assistive frame with remote-controlled back and leg adjustments
*Designed to sit directly on most standard hospital bed platforms
*Hard cotton construction for firm, breathable, all-day support
*Ideal for bedpan access, repositioning, and pressure relief
*Lightweight, durable, and easy to clean
*Suitable for in-home care, hospice, or medical facility use
*Long-term patient care and recovery
*Elder care or hospice environments
*Bedridden patient comfort and hygiene
*In-home use when upgrading a hospital bed

Bariatric Hospital ICU Alternating Pressure Air Mattress with Pump

About this item

The Kerae Bariatric Alternating Pressure Air Mattress System (42") is a heavy-duty, medical-grade support surface designed for bariatric patients requiring advanced pressure redistribution therapy. Engineered with 8-inch deep air chambers and a digital ultra-quiet pump, this system helps prevent and manage pressure ulcers by continuously alternating pressure across the mattress surface. The 42-inch wide design provides enhanced stability and comfort for larger patients in hospital, long-term care, or home care environments. Ideal for patients at moderate to high risk of pressure injuries.

SKU: 498719Y

Key Features

*Alternating mode for active pressure relief
*Static mode for stable support
*Seated/Incline mode for upright positioning assistance

Anti-Bedsore Memory Foam Hospital Bed Mattress

About this item

The Hospital Memory Foam Anti-Bedsore Mattress is designed to provide exceptional comfort, pressure relief, and durability for patients who spend extended periods in bed. Its high-density memory foam construction evenly distributes body weight, helping to reduce pressure points and minimize the risk of developing bedsores. Ideal for hospitals, nursing homes, and home care environments, this mattress combines medical functionality with patient comfort.

Specifications

*Breathable, waterproof, and easy-to-clean medical-grade cover

SKU: 9043590

Key Features

*High-density memory foam core for superior support and comfort
*Anti-bedsore design promotes healthy circulation and reduces pressure ulcers
*Compatible with standard hospital beds and adjustable frames
*Lightweight construction for easy handling and transport
*Ideal for long-term patient care in medical or home settings

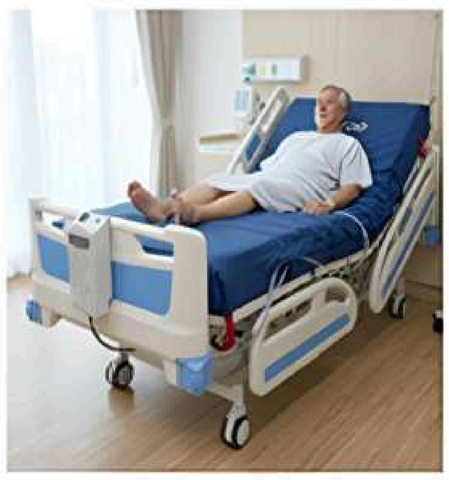

Kerae Mattress Overlay System with Manual Pump

About this item

Provide superior comfort and essential pressure relief with the Kerae Mattress Overlay System, specially designed for patients who remain in bed for extended periods. This medical-grade air mattress helps prevent and relieve pressure ulcers (bedsores) by evenly distributing body weight and reducing continuous pressure on sensitive areas. Built with air buoyancy decompression technology, the mattress features multiple air cells that adapt to the body's shape, improving circulation and minimizing discomfort. Unlike electric systems, this overlay is non-powered and easy to use, making it ideal for both home care and clinical environments. The adjustable air chambers allow customized firmness levels, ensuring optimal comfort and support for each patient.

SKU: KM2009B

Kerae Air Mattress with Pump

About this item

The Kerae KM2009A Air Mattress with Pump is a medical-grade alternating pressure system designed for the prevention and treatment of pressure ulcers (bedsores). Ideal for home care, nursing homes, and hospital use, this system provides continuous pressure redistribution to improve circulation and reduce prolonged skin compression. With quiet pump operation, breathable waterproof cover, and easy installation, this mattress is an effective solution for patients requiring extended bed rest.

SKU: KM2009A

Kerae Low Air Loss Air Mattress

About this item

The Kerae Hospital ICU 8" Low Air Loss Mattress Replacement System is a medical-grade alternating pressure mattress designed to help prevent and manage pressure ulcers in home care, long-term care, and hospital settings. Featuring 8-inch deep air chambers and a digital ultra-quiet pump, this system evenly distributes patient weight while reducing prolonged pressure on vulnerable areas. The alternating pressure therapy promotes circulation and enhances patient comfort during extended bed rest. Ideal for patients at risk of skin breakdown, immobility, or extended recovery periods.

Key Features

*Alternating Mode: Cycles air to reduce pressure buildup
*Static Mode: Provides stable support surface
*Seated/Incline Mode: Assists with upright positioning

Wrist Blood Pressure Monitor

About this item

Track your blood pressure easily and accurately with the Kerae Medical Wrist Blood Pressure Monitor. Featuring a rechargeable lithium battery, large LCD screen, and simple one-button operation, this compact device is perfect for home or travel. The cuff automatically inflates and adjusts to fit most wrist sizes, while the built-in memory stores previous readings to help monitor trends over time.

Specifications

*Rechargeable Lithium Battery – No need for disposable batteries

SKU: WRI-BLO-PRE-MON

Key Features

*Large LCD Display – Easy-to-read measurements in seconds
*One-Touch Operation – Simple and user-friendly interface
*Adjustable Cuff – Fits most adult wrist sizes comfortably
*Memory Function – Stores multiple readings for tracking changes

FFP2 Protective Face Mask

About this item

Stay protected with the FFP2 NR Particle Filtering Half Mask from Kerae Medical, designed to filter out at least 94% of airborne particles. Ideal for personal, medical, or workplace use, this non-reusable (NR) mask features a 5-layer construction for effective filtration and all-day comfort. The ergonomic design ensures a secure fit around the nose and mouth, while the adjustable nose bridge and soft ear loops reduce pressure and irritation during extended wear. Whether you're navigating high-risk environments or simply seeking an extra layer of defense, this mask offers reliable, breathable protection.

Key Features

*Certified FFP2 NR protection (EN 149:2001 + A1:2009 compliant)
*5-layer design with high-efficiency melt-blown filter
*Comfortable 3D shape with a close facial fit
*Adjustable metal nose clip for a secure seal
*Soft elastic ear loops for extended comfort
*Daily protection in public or crowded spaces
*Healthcare and industrial settings
*Airborne particle and dust protection

Specifications

*Filters ≥94% of airborne particles
*Latex-free, fiberglass-free, and non-irritating materials

Resting Hand Splint with Aluminum Plate

About this item

Kerae Medical's Resting Hand Splint is designed to provide stable, comfortable positioning for the hand, wrist, and fingers during recovery. Built with a lightweight yet supportive aluminum plate, it maintains the hand in a functional resting position, helping reduce pain, swelling, and stiffness caused by injury, surgery, arthritis, or neurological conditions. The breathable padded lining ensures comfort for extended wear, while adjustable straps allow for a secure, customized fit. This splint is ideal for nighttime use or continuous support during rehabilitation, making it a reliable choice for both clinical and home care.

Key Features

*Helps reduce pain, swelling, and stiffness
*Ideal for recovery after injury, surgery, or with arthritis/ neurological conditions
*Adjustable straps for secure, personalized fit
*Soft, breathable padding for long-term comfort
*Suitable for nighttime or all-day wear

Ankle Thigh Highs Compression Sock

About this item

Support circulation and reduce the risk of venous issues with Kerae Medical's Ankle Thigh Highs Compression Socks. These medical-grade stockings apply a 15–21mmHg gradient pressure from the ankle to the thigh, promoting healthy blood flow, relieving leg fatigue, and helping prevent swelling or varicose veins. Crafted from soft, breathable elastic fabric, they provide a snug yet comfortable fit for all-day wear. Perfect for post-surgery recovery, long travel, or daily use, these compression socks combine medical effectiveness with lightweight comfort.

Specifications

*Medical-Grade Compression – 15–21mmHg gradient pressure supports circulation.

Key Features

*Ankle-to-Thigh Coverage – Full-length design for comprehensive vascular support.
*Anti-Venous Thrombosis Protection – Helps reduce risk of blood clots and varicose veins.
*Comfortable Wear – Breathable elastic material reduces irritation and maintains airflow.
*Versatile Use – Ideal for recovery, travel, work, or daily wellness.

Patellar Tendon Strap

About this item

The Patellar Tendon Strap from Kerae Medical provides targeted pressure and support to reduce knee strain during activity. Designed for athletes and active individuals, this strap helps relieve discomfort caused by conditions like runner's knee, patellar tendonitis, and Osgood-Schlatter disease. Its bidirectional adjustment system ensures a secure, customizable fit that stabilizes the patella while allowing full mobility. Made from soft, breathable materials, the strap is lightweight and comfortable enough for extended wear during sports, training, or daily routines. Compact and discreet, it fits easily under clothing and is suitable for both preventative support and injury recovery.

Key Features

*Targeted pressure reduces strain on the patellar tendon
*Adjustable bidirectional strap for a secure, personalized fit
*Provides support for sports, exercise, and daily use
*Lightweight, breathable material for comfort during activity
*Helps relieve pain from runner's knee, tendonitis, and similar conditions
*Compact design fits under clothing without bulk

Cold Therapy System

About this item

The Cold Therapy System is a portable, non-invasive solution designed to deliver consistent cold therapy for pain relief, swelling reduction, and post-injury or post-surgical recovery. Ideal for use at home, in clinics, or during rehabilitation, this system combines controlled cold application with comfortable compression to support faster healing and improved comfort. The system includes an insulated cooler, flexible tubing, and a reusable cryo cuff that can be applied to multiple body areas such as the knee, shoulder, ankle, or arm. Cold water circulates through the cuff, providing targeted therapy without direct ice contact with the skin, helping reduce inflammation while maintaining patient comfort.

Specifications

*Soft, medical-grade materials for comfort and durability

Key Features

*Continuous cold therapy to help reduce pain, swelling, and inflammation
*Reusable cryo cuff designed for targeted application on various body parts
*Insulated cooler maintains cold temperature for extended therapy sessions
*Easy-to-use gravity-fed system with adjustable flow
*Ideal for post-surgical recovery, sports injuries, arthritis, and physical therapy
*Post-operative rehabilitation
*Sports and orthopedic injuries
*Muscle strains, joint pain, and swelling
*Physical therapy and home recovery use

Wrist Ice Pack Wrap for Pain Relief

About this item

Experience advanced comfort and targeted relief with the Wrist Cold/Hot Therapy Ice Pack Wrap (02 Edition) — designed with enhanced ergonomics and soft-touch materials. This upgraded design includes a thumb opening, allowing the wrap to stay in place more naturally while providing better coverage around the wrist joint. Whether you're dealing with carpal tunnel syndrome, arthritis, sprains, or post-workout soreness, this wrap delivers effective relief exactly where you need it. The dual hot and cold therapy function makes it versatile for any recovery stage. Use cold therapy to reduce swelling and inflammation, or heat therapy to loosen stiff muscles and promote circulation. Unlike standard gel packs, this version features a soft plush side for added comfort, allowing safe application directly on the skin without discomfort. With adjustable compression straps, the wrap stays secure while allowing full mobility—perfect for daily use at home, work, or during rest.

Wrist Ice Pack Wrap for Pain Relief

About this item

Relieve wrist pain and speed up recovery with the Wrist Cold/Hot Therapy Ice Pack Wrap, designed for effective, targeted treatment. This ergonomic wrap fits comfortably around your wrist, providing consistent therapy for conditions like carpal tunnel syndrome, arthritis, sprains, tendonitis, and general muscle fatigue. The dual-function design allows you to switch between cold and heat therapy depending on your needs—cold reduces inflammation and swelling, while heat helps relax muscles and improve blood circulation. Equipped with adjustable compression straps, this wrap stays securely in place, allowing for hands-free use whether you're working, typing, or resting. Made with a flexible gel interior, the pack remains soft even when frozen, ensuring maximum comfort and full contact with your wrist. Perfect for daily use at home, work, or recovery after workouts.

Reusable Ice Pack Wrap for Shin, Calf & Forearm

About this item

The Reusable Ice Pack Wrap for Shin, Calf & Forearm is designed to deliver targeted pain relief and recovery support for active individuals and everyday use. Whether you're dealing with shin splints, muscle fatigue, swelling, or minor injuries, this wrap provides effective hot and cold therapy exactly where you need it. The flexible gel pack contours to your body, ensuring maximum surface contact and consistent temperature distribution. With dual adjustable straps, the wrap stays securely in place, allowing hands-free use while you relax or stay active. Cold therapy helps reduce inflammation and swelling after workouts or injuries, while heat therapy works to loosen tight muscles and improve circulation for faster recovery. Built with durable, leak-proof materials, this reusable wrap is perfect for athletes, fitness enthusiasts, or anyone seeking reliable muscle relief.

Calcium Alginate Dressing 4"x 4" (120GSM) 10/Box/60

About this item

Kerae Medical's Calcium Alginate Dressing offers advanced wound care with high absorbency and natural healing support. Made from seaweed-derived fibers, this dressing transforms into a soothing gel upon contact with wound exudate, maintaining a moist environment that promotes faster healing. Ideal for moderate to heavily exuding wounds, surgical sites, ulcers, and pressure injuries. The dressing conforms comfortably to irregular wound beds and helps reduce the risk of maceration while supporting autolytic debridement. Suitable for use under secondary dressings.

Key Features

*Highly Absorbent – Locks in exudate and reduces dressing changes

*Moist Wound Healing – Gel formation promotes optimal healing conditions

*Conformable – Easily molds to wound shape for maximum contact

*Biocompatible – Gentle on sensitive or fragile skin

Specifications

*Sterile & Latex-Free – Safe for clinical and home use

SKU: J018441

Wound Closure Device Zip Suture 2in x 3in 4/Pack

About this item

The Zip Suture Wound Closure Device offers a fast, non-invasive alternative to traditional stitches or staples. Designed for ease of use, this 2" x 3" adhesive device securely holds wound edges together while reducing skin tension and minimizing scarring. Ideal for minor lacerations, surgical incisions, or emergency wound care, it can be applied in seconds — no needles, pain, or follow-up suture removal needed. Each 4-pack is individually sealed for sterile use, making it perfect for clinics, first aid kits, and home care.

Key Features

*Non-invasive wound closure for incisions or lacerations

*No needles or staples — minimizes pain and trauma

*Strong adhesive and locking zip for secure, reliable hold

*Helps reduce scarring and promotes faster healing

*Easy to apply and remove — ideal for home, clinic, or field use

Specifications

*2" x 3" (6cm x 7cm) adhesive closure device

*Sterile and individually packed for hygiene

*4 per pack for multiple applications

SKU: 847284M

Cohesive Elastic Bandage

About this item

Kerae's Cohesive Elastic Bandage delivers dependable compression and support without the hassle of clips or sticky adhesives. This 4-inch wide bandage sticks only to itself, making it ideal for wrapping joints, securing dressings, or supporting injuries—without pulling on skin or hair. Whether you're treating sprains, covering wounds, or looking for athletic support, this breathable, water-resistant bandage stays in place and moves with you. Great for clinics, home care, and even pet use.

Key Features

*Self-Adherent – Sticks only to itself, not skin or hair
*Flexible & Comfortable – Conforms to body contours without restricting movement
*Water-Resistant & Breathable – Protects wounds while allowing airflow
*Versatile Use – Great for joints, limbs, and awkward areas

Specifications

*12-Roll Value Pack – Each roll measures 4" x 5 yds (unstretched)

SKU: COH-ELA-BAN-4X5

Sterile ABD Pad (5" x 9")

Triple Antibiotic Ointment

About this item

The Zip Suture Wound Closure Device offers a fast, non-invasive alternative to traditional stitches or staples. Designed for ease of use, this 2" x 3" adhesive device securely holds wound edges together while reducing skin tension and minimizing scarring. Ideal for minor lacerations, surgical incisions, or emergency wound care, it can be applied in seconds — no needles, pain, or follow-up suture removal needed. Each 4-pack is individually sealed for sterile use, making it perfect for clinics, first aid kits, and home care.

Key Features

*Triple protection: Combines three antibiotic agents to prevent infection
*24-hour defense: Provides a full day of antimicrobial protection
*Scar reduction: Nourishes the skin and supports improved healing
*No-sting formula: Gentle and soothing even on sensitive skinNatural oils & vitamins: Includes cocoa butter, olive oil, oregano oil, Vitamin E, and more
*Easy to apply: Smooth texture spreads evenly over wounds
*Family-safe: Suitable for kids, adults, and sensitive users
First aid essential: Great for cuts, scrapes, abrasions, and minor burns

Xeroform gauze dressing 4in x 4in

About this item

Kerae Medical's Xeroform Gauze Dressing is a sterile, non-adherent wound dressing infused with 3% Bismuth Tribromophenate in a petrolatum blend. Ideal for low-exuding wounds, it provides a moist healing environment, protects against infection, and prevents the dressing from sticking to the wound bed. Perfect for surgical sites, skin grafts, donor areas, and burns.

Key Features

*Non-Adherent Design – Minimizes trauma during dressing changes

*Antibacterial Protection – Bismuth Tribromophenate helps control wound bacteria

*Maintains Moist Wound Environment – Promotes faster healing

*Versatile Use – Ideal for burns, skin grafts, donor sites, surgical wounds

Specifications

*Sterile & Ready to Use – Safe for clinical or home care

SKU: 7391659

Kerae Hydrogel Dressing

About this item

Kerae Medical's Amorphous Hydrogel Dressing is a sterile, soothing gel designed to create and maintain the ideal moisture balance in wound care. This versatile formula helps rehydrate dry wounds and absorb excess exudate in moist environments, promoting natural healing and reducing discomfort. Perfect for pressure sores, surgical wounds, diabetic ulcers, and first- or second-degree burns, this dressing is non-adherent, easy to apply, and safe for repeated use. Whether you're managing chronic wounds or post-operative care, the hydrogel helps support autolytic debridement and tissue regeneration without damaging healthy skin.

Key Features

*Rehydrates dry wounds and maintains moisture balance

*Absorbs exudate in moist wound environments

*Supports natural debridement and tissue repair

*Non-adherent and gentle on healing skin

*Easy to apply and remove

Specifications

*Sterile and suitable for a range of wound types

Non-Woven Adhesive Tape 1"×5.5 yards

About this item

Kerae Medical's Non-Woven Adhesive Tape provides gentle, breathable, and reliable fixation for dressings, medical devices, and wound care needs. Designed to stay securely in place for up to 48 hours, this soft tape allows air circulation to support skin health while offering strong adhesion. Ideal for sensitive skin, the tape removes easily and pain-free without leaving sticky residue or causing skin trauma. Its flexible, non-woven material conforms comfortably to body contours—perfect for joints, delicate areas, and extended wear.

Key Features

*Gentle and breathable for sensitive skin

*Secure adhesion for up to 48 hours

*Painless, residue-free removal

*Ideal for dressings, medical devices, tubing, and wound care

Specifications

*Soft, flexible non-woven fabric conforms to body contours

*2.5cm × 5m roll—easy to cut to size

SKU: NON-ADH-TAP-25C

Non-Woven Fixing Tape

About this item

Kerae Medical's Non-Woven Fixing Tape is the versatile, breathable solution for securing dressings, tubing, and lightweight medical devices. Designed with a 3-layer construction, this tape offers soft comfort, strong adhesion, and easy application without leaving residue. The fabric is gentle on sensitive skin, making it ideal for post-surgical care, wound care, and everyday medical needs. The tape can be cut to any length or shape, allowing for precise application even on irregular or contoured body areas. Its traceless removal ensures minimal skin irritation and mess-free dressing changes.

Key Features

*Soft & Breathable – Enhances comfort, ideal for extended wear

*Cuttable & Customizable – Easily cut to fit any application area

*Traceless Removal – Leaves no sticky residue on skin

*Secure Hold – Reliable adhesion for dressings, tubing, and lightweight devices

Specifications

*3-Layer Non-Woven Design – Durable, breathable, and soft against the skin

*Size: 5 cm x 10 m roll

SKU: NON-FIX-TAP-5CM

PE Transparent Tape

About this item

Kerae Medical's Amorphous Hydrogel Dressing is a sterile, soothing gel designed to create and maintain the ideal moisture balance in wound care. This versatile formula helps rehydrate dry wounds and absorb excess exudate in moist environments, promoting natural healing and reducing discomfort. Perfect for pressure sores, surgical wounds, diabetic ulcers, and first- or second-degree burns, this dressing is non-adherent, easy to apply, and safe for repeated use. Whether you're managing chronic wounds or post-operative care, the hydrogel helps support autolytic debridement and tissue regeneration without damaging healthy skin.

Key Features

*Transparent PE film for visible skin and wound inspection

*Breathable and flexible for long-lasting comfort

*Secure adhesive holds dressings in place

*Easy-tear material simplifies application

Specifications

*Hypoallergenic and latex-free for sensitive skin

*12 rolls per box

Transparent Pressure Ulcer Film IV Dressing (Tegaderm - 10cm x 12cm) (25 pack)

About this item

Tegaderm Transparent Film Dressings provide a sterile, waterproof barrier that protects wounds and IV sites while allowing continuous visibility for monitoring. Measuring 4 inches x 4.75 inches (10cm x 12cm), each dressing conforms comfortably to the skin and stretches with body movement, making it ideal for hard-to-dress areas. These dressings are breathable to support healing, yet effectively shield against water, bacteria, and external contaminants. Easy to apply and remove without disturbing healing tissue, Tegaderm is a trusted choice for hospitals, clinics, and at-home care.

Key Features

*Transparent for continuous site monitoring

*Waterproof and bacteria-resistant barrier

*Flexible and conforms to body contours

*Breathable to support moisture balance and healing

*Easy to apply and remove with minimal discomfort

Specifications

*Sterile and latex-free

*25 dressings per pack

SKU: 302599E

Hydrocolloid Foam Dressing (10cm x 10cm (4in x 4in), 5/Box)

About this item

Kerae Medical's Hydrocolloid Foam Dressing delivers advanced wound protection and comfort in a self-adherent, moisture-retentive design. Ideal for light to moderately exuding wounds, it forms a protective gel barrier that supports the natural healing process while minimizing pain during removal. This dressing conforms easily to body contours, absorbs exudate efficiently, and keeps the wound environment moist—reducing the risk of infection and enhancing recovery. Perfect for ulcers, pressure sores, and minor burns, it's latex-free and safe for sensitive skin.

Key Features

*Absorbs exudate while maintaining a moist wound environment

*Painless removal helps protect delicate skin and healing tissue

*Conforms to body contours for comfort and flexibility

*Ideal for light to moderate exuding wounds, pressure ulcers, and minor burns

Specifications

*3Moisture-retentive hydrocolloid layer promotes healing

*Latex-free, sterile, and individually wrapped

Silicone Foam Dressing with Border

About this item

Experience gentle, effective wound care with Silicone Foam Dressing with Border from Kerae Medical. Designed to cushion and protect, these sterile, self-adherent dressings feature a soft silicone contact layer that minimizes pain during removal while maintaining a secure hold. The highly absorbent foam core manages exudate efficiently, helping promote a moist healing environment and preventing leakage. The breathable outer layer adds a protective barrier while remaining flexible and skin-friendly. Ideal for pressure ulcers, surgical wounds, and abrasions.

Key Features

*Absorbent foam core promotes moist healing
*Minimizes pain and trauma during dressing changes
*Breathable, flexible, and skin-friendly material
*Helps protect wounds from bacteria and contamination
*Suitable for pressure ulcers, surgical wounds, and more

Specifications

*Soft silicone border for gentle, secure adhesion
*Available in 2.5"×2.5", 4"×4", and 6"×6" sizes

Island Dressing Pad 4" x 4" (50 pcs per box)

About this item

Kerae Medical's Island Dressing Pads provide secure, sterile wound protection with an all-in-one design. Each pad features a soft, absorbent center to cushion and protect wounds, surrounded by a non-woven adhesive border that keeps the dressing in place without irritating the skin. Ideal for post-surgical wounds, abrasions, or light to moderate exudate, the breathable construction promotes airflow for optimal healing while preventing external contamination.

Specifications

*Sterile and individually wrapped for safe, hygienic use

*Size: 10cm x 10cm – 50 dressings per box

SKU: HIG-ELA-BAN-75C

Key Features

*Soft absorbent pad with adhesive border for easy application

*Gentle on skin with strong adherence to stay in place

*Allows air circulation while protecting against fluids and bacteria
